PRICE LIST

Custom orders for California Foundation strawberry plants for delivery the following Spring must be received by July 1st each year. After these dates, remaining available plant material will be sold on a first-come, first-served basis. Please be sure to specify on your order form whether you want plants *in-vitro* or in soil and the approximate date when you'd like to receive them.

VIRUS INDEXED, HEAT TREATED, MERISTEM CULTURED CALIFORNIA FOUNDATION STOCK PLANTS (for plants to be supplied between July 1, 2009 and June 30, 2010)

Plants <i>in vitro</i>	\$170.00 each
Plants established in soil	\$200.00 each

Important Note: *in-vitro* material supplied by FPS is intended to be used for horticultural purposes only, and no guarantee of suitability can be made for use of this material for other purposes, including tissue culture work.

Buyer must be a licensed propagator of UC-patented strawberry cultivar(s) to buy UC-patented strawberry plants from FPS. For licensing information, please contact Mr. Michael Carriere at UC Davis *InnovationAccess* Technology Transfer Services (IA-TTS) by phone at (530) 747-3945, by FAX at (510) 587-6090 or by email at mdcarriere@ucdavis.edu. Licensing with IA-TTS does not guarantee the availability of plants; FPS must still receive an order and pre-payment to propagate. Varieties off-patent in the U.S. may still have restrictions when distributed outside the U.S. Please inquire with IA-TTS if requesting off-patent items for foreign shipment.

TERMS

Material Allocation Policy

FPS strawberry materials are produced for and allocated among those whose orders are received and confirmed by the preceding summer's deadline. Orders are considered confirmed upon receipt of an original signed order form and required prepayment. In the event requests for some materials exceed the available supply, materials are allocated according to an established priority system. Requests from participants in the California Strawberry Registration and Certification Program receive first priority, those from other California customers receive second priority, orders from other U.S. customers receive third priority, and requests from foreign customers receive fourth priority. Any extra plants that may be available in the Spring are sold on a first-come, first-served basis.

Prices & Prepayment

The minimum materials charge is \$170.00 per order. Prices, prepayments and final billings are based on the number of units ordered. Prepayment in the amount of 50% of material cost is required for domestic orders at the time the order is placed; 100% prepayment in U.S. dollars is required for foreign orders.

Order Pickup/Shipping and Packing & Handling Charges

No shipping or packing & handling fees are charged for orders picked up at the FPS facility, however, due to space and labor limitations, FPS asks that all orders for strawberry plants be picked up within 30 days of notification that they are ready for pickup. FPS reserves the right to assess customers for storage of materials not picked up after 30 days.

For all orders that are shipped to customers, shipping and packing & handling fees are added to the price of the material along with any fees for required documentation, testing or foreign shipment. Shipping fees are charged at the actual cost to FPS. All materials are shipped F.O.B. Davis, California. Buyer agrees to pay all costs of transportation and assumes all risk of loss during shipment. Packing & handling fees are added to all shipped orders according to the destination, as follows:

- 10% for orders shipped within the U.S.
- 25% for orders shipped outside the U.S.

Policy on Cancellations and Changes to Orders

Because FPS materials are custom prepared for each customer, cancellations are not accepted once plants have been started. Exceptions are considered on a case-by-case basis at the discretion of distribution manager and director only if another buyer is available for the cancelled material. Additions to orders will receive allocation priority according to the date they were added. FPS reserves the right to bill for and/or retain prepayments for materials that are cancelled once they have been prepared.

Foreign Orders

All orders for shipment outside the U.S. will be shipped via international express air courier, with the customer paying all fees. Absolutely no letters of credit will be accepted. Most foreign orders require an import permit from the destination country's national plant protection service in order to obtain the required phytosanitary certification.

Phytosanitary Documentation

Domestic customers will be charged at actual cost for any needed quarantine compliance certificates. Foreign customers will be charged \$66.00 for each federal phytosanitary certificate, as well as the cost of any special testing or treatments required by destination country.
