TERMS

Material Allocation Policy

FPS sweet potato material may be purchased only by current members of the sponsoring organization. Plants and cuttings are produced for and allocated among those whose orders are received and confirmed by the following ordering deadlines: **February 1st** for mid- to late-Spring delivery and **September 1st** for mid- to late-Fall delivery. Orders are considered confirmed upon receipt of an original signed order form and required prepayment. In the event requests for some materials exceed the available supply, materials are allocated according to an established priority system.

Prices & Prepayment

The minimum order per variety is 49 plants, and the minimum materials charge is \$100.00 per order. Prices, prepayments and final billings are based on the number of units ordered. Prepayment in the amount of 50% of material cost is required for domestic orders at the time the order is placed. Prices are subject to change without notice.

Order Pickup/Shipping and Packing & Handling Charges

No shipping or packing & handling fees are charged for orders picked up at the FPS facility, however, due to space and labor limitations, FPS asks that all orders for sweet potato plants be picked up within 30 days of notification that they are ready for pickup. FPS reserves the right to assess customers for storage of materials not picked up after 30 days.

For all orders that are shipped to customers, shipping and packing & handling fees are added to the price of the material along with any fees for required documentation, testing or foreign shipment. Shipping fees are charged at the actual cost to FPS. All materials are shipped F.O.B. Davis, California. Buyer agrees to pay all costs of transportation and assumes all risk of loss during shipment. Packing & handling fees are added to all shipped orders according to the destination, as follows:

- 10% for orders shipped within California
- 20% for orders shipped outside of California, but within the U.S.
- 25% for orders shipped outside the U.S.

Policy on Cancellations and Changes to Orders

Because FPS materials are custom prepared for each customer, cancellations are not accepted once plants have been started. Exceptions are considered on a case-by-case basis at the discretion of distribution manager and director only if another buyer is available for the cancelled material. Additions to orders will receive allocation priority according to the date they were added. FPS reserves the right to bill for and/or retain prepayments for materials that are cancelled once they have been prepared.

Foreign Orders

All orders for shipment outside the U.S. will be shipped via airfreight by a forwarding company under contract with the University, with the customer paying all fees. Absolutely no letters of credit will be accepted. Most foreign orders require an import permit from the destination country's national plant protection service in order to obtain the required phytosanitary certification.

Phytosanitary Documentation

Domestic customers will be charged at actual cost for any needed quarantine compliance certificates. Foreign customers will be charged \$50.00 for each federal phytosanitary certificate, as well as the cost of any special treatments required by destination country.
